

# Assignment 1 – HTML

## Question 1: Build a Landing Page

### Objective:

The goal of this assignment is to build a simple, responsive landing page using HTML5. You will work through several tasks to create and organize the structure of your page. By completing this, you will gain hands-on experience with HTML tags, attributes, and page layout.

### Requirements:

#### 1. HTML Document Setup:

- Use `<!DOCTYPE html>` to specify the document type.
- Set the lang attribute to English in the `<html>` tag.
- Include a `<head>` section with:
  - A character encoding (UTF-8).
  - A page title ("My Landing Page").
  - A meta description.
  - A viewport meta tag for responsiveness.
  - A link to an external CSS file (style.css).

#### 2. Header Section:

- Add a `<header>` containing:
  - A div for the logo or brand name inside an `<h1>`.
  - A navigation menu with links for "Home," "Services," "About," and "Contact" in a `<nav>` tag.

#### 3. Hero Section:

- Add a `<section>` with a class of hero containing:
  - A headline (`<h2>`).
  - A subheadline (`<p>`).
  - A call-to-action button (`<a>` with a class of cta-button).

#### 4. Services Section:

- Create a `<section>` with an id of services containing:
  - A heading (`<h2>`) for the section.
  - Three div elements with a class of service-item, each with a service name (`<h3>`) and details (`<p>`).

5. About Section:

- Add a <section> with an id of about containing:
  - A heading (<h2>).
  - A paragraph (<p>) about the company.

6. Contact Section:

- Include a <section> with an id of contact containing:
  - A heading (<h2>).
  - A contact form (<form>) with:
    - A text input for "Name".
    - An email input for "Email".
    - A text area for "Message".
    - A submit button.

7. Footer Section:

- Add a <footer> containing:
    - A list of social media links (<ul> with <a> tags for "Facebook," "Twitter," and "LinkedIn").
    - A paragraph for copyright information.
-
